

CURRICULUM VITAE

Maryam Monemian

Year of birth: 1985

Nationality: Iranian

Mobile: +98 (0)913 103 6845

Tel: +98 (0)31 3260 1652

Emails: monemian@gmail.com, m.monemian@ec.iut.ac.ir

Education

- **Ph.D.** in Electrical Engineering, Telecommunication Networks, Sept. 2010- Aug. 2016.
Isfahan University of Technology
Thesis: To propose new energy-based sensor selection algorithms for cooperative spectrum sensing in cognitive radio sensor networks
Thesis Grade: Excellent
Supervisor: Dr. Mehdi Mahdavi
Advisor: Dr. Mohammad Javad Omid
- **M.Sc.** in Electrical Engineering, Telecommunication Networks, Sept. 2007- Feb. 2010.
Isfahan University of Technology
Thesis: Fault tolerance and the betterment of bandwidth allocation in wireless cellular networks
Supervisors: Dr. Pejman Khadivi, Dr. Maziar Palhang
- **B.Sc.** in Electrical Engineering, Control, Sept. 2003- Sep. 2007.
Isfahan University of Technology
Thesis: Verification of data combining methods
Supervisor: Dr. Jafar Gheisari

Publications

- [1] [ISI, IF = 1.6] **M. Monemian**, M. Mahdavi, M. J. Omid, "Improving the Lifetime of Multi-Channel Cognitive Radio Sensor Networks via New Spectrum Sensing Method", *Transactions on Emerging Telecommunications Technologies*, Wiley Online Library, 2018.
- [2] [ISI, IF = 2.6] **M. Monemian**, M. Mahdavi, M. J. Omid, "Optimum Sensor Selection Based on Energy Constraints in Cooperative Spectrum Sensing for Cognitive Radio Sensor Networks", *IEEE Sensors Journal*, Vol. 16, Issue. 6, pp. 1829-1841, 2016.
- [3] [ISI, IF = 2.6] **M. Monemian**, M. Mahdavi, "Analysis of a new energy-based sensor selection method for cooperative spectrum sensing in cognitive radio networks", *IEEE Sensors Journal*, pp. 3021-3032, 2014.
- [4] **M. Monemian**, M. Mahdavi, M. J. Omid, "A comprehensive sensor selection method based on energy constraints for cooperative spectrum sensing", *Proceeding of IEEE International Conference on Communications (ICC)*, Kuala Lumpur, Malaysia, 2016.

- [5] **M. Monemian**, M. Mahdavi, M. J. Omid, “A novel energy efficient sensor selection algorithm for a multi-channel cognitive radio network”, *Proceeding of IEEE 23rd Iranian Conference on Electrical Engineering (ICEE)*, Tehran, Iran, pp. 363-367, 2015.
- [6] **M. Monemian**, M. Mahdavi, “Sensing user selection based on energy constraints in cognitive radio networks”, *Proceeding of IEEE Wireless Communication and Networking Conference (WCNC)*, Istanbul, Turkey, pp. 3379-3384, 2014.
- [7] **M. Monemian**, P. Khadivi, “A novel CAC algorithm based on bandwidth degradation for more efficient provision of the requirements of multimedia applications”, *Proceeding of IEEE International Symposium on Telecommunications (IST)*, Tehran, Iran, pp. 754-759, 2012.
- [8] **M. Monemian**, P. Khadivi, M. Palhang, “Cost calculation in bandwidth degradation schemes in cellular networks”, *Proceeding of IEEE 18th Iranian Conference on Electrical Engineering (ICEE)*, Tehran, Iran, pp. 162-166, 2010.

- [10] **M. Monemian**, P. Khadivi, M. Palhang. “Analytical model of failure in LTE networks”, *Proceeding of IEEE Malaysian International Conference on Communications (MICC)*, Kuala Lumpur, Malaysia, pp. 821-825, 2009.

Teaching experiences

Graduate teaching experiences

- **Digital Signal Processing (DSP)**, Islamic Azad University of Majlesi, 2013.
- **Stochastic processes**, Islamic Azad University of Majlesi, 2013.

Undergraduate teaching experiences

- **C programming**, Isfahan University of Technology, 2011.
- **NGN networks**, Jahad University, Branch of Isfahan University of Technology, 2010.
- **Computer networks**, Jahad University, Branch of Isfahan University of Technology, 2010.
- **Electronic I**, Islamic Azad University of Najafabad, 2011.
- **Signals and systems**, Islamic Azad University of Majlesi, 2010.
- **Digital communication**, Foulad Institute of Technology, 2012.
- **Mobile communication**, Foulad Institute of Technology, 2012.
- **Internet engineering**, Foulad Institute of Technology, 2012.

Languages

- English
 - TOEFL iBT score: 95
- Farsi (Persian): Maternal Tongue

Honors and Awards

- Recipient of Student Travel Grant at WCNC 2014.

- The paper “*Analysis of a new energy-based sensor selection method for cooperative spectrum sensing in cognitive radio networks*” was in top 25 most downloaded paper at August 2014.
- Ranked 432 among more than one million applicants in 2003 Universities Entrance Examination for Bachelor’s Degree.
- Ranked 146 among about 10000 applicants in 2007 Universities Entrance Examination for Master’s Degree.

Membership

- Member of IEEE, from Jan. 2014.
- Member of IEEE Communication Society, from Jan. 2014.

Computer skills

- Office
- MATLAB
 - Sample projects: All the computer simulations of Master and PhD thesis were done with MATLAB.
- C
- PHP, MYSQL, Wordpress, CodeIgniter, Bootstrap
- HTML, CSS, JQuery, Javascript

Fields of interest

- Cognitive radio networks
- Spectrum sensing
- Energy efficiency analysis
- Wireless sensor networks
- Mobile wireless networks
- Bandwidth allocation and call admission control
- Mathematical modelling with application in biomedical engineering
- Medical image detection and segmentation with deep learning methods
- Machine learning
- Cooperative communication
- Web programming and design
